

Because we all love a parade!

WE WANT YOU!

To design and build a float for the SIXTH Annual SMALLEST Parade in the Universe
2021 THEME:

The SMALLEST Parade in the Universe is a fundraiser for MARC, the Monroe Association for ReMARCable Citizens and is an official Fantasy Fest event for 2021. The Parade will take place on October 23 7PM at The Studios.

All floats are auctioned off at the end of the Parade

This year we are partnering with The Studios of Key West and the float will be exhibited for the ENTIRE month of October in the Sanger Gallery!

Please reach out to Becki Balcer with MARC for any questions. Becki.Balcer@gmail.com or 305.294.95216 xt 25

Rules:

This is a PG-13 rated event. Think Fun and Funny

- Float dimensions: No larger than 18 inches long, 18 inches wide or 18 inches high.
- No means of propulsion needed. The floats will move down the parade route on a moving track. They move from right to left, so the right, starboard, "passenger" side of the float is the back and the "driver's" side faces the audience.
- Lights and animated elements may be added to the float as long as it is done safely and totally within the dimensions. Please route all switches to the back of your entry and include a tech note for parade staff.
- Floats will be carried by parade staff to the conveyor and then to the silent auction or pick-up area. Make it easy for them by making the floats carry-friendly. Consider weight, loose parts, and wiggly things. Handles are nice.
- Sign your float with your name, its title and the year.
- No open flames, live animals, uncontained liquids, politics, blatant advertising or hazardous materials, please.

FLOATS DUE OCTOBER 1 to The Studios of Key West
