In 2019, The Studios purchased the Historic Carriage Trade next door to our flagship facility on Eaton Street. The moment we stepped into its romantic courtyard, we could feel the building's history, and see its potential - not just as the new home for the **Peyton Evans Artist Residencies (PEAR)** - but to open a whole new chapter for Key West's creative community.

We also knew the building would need love and attention to adapt it for a new era, remove ad hoc additions and address long deferred maintenance. Our goal is to raise \$1.8 million by May 2022 to complete the restoration. As of February 2022, we have raised \$1.4 million.

Please consider joining as an investor in this project that will have a transformational effect on The Studios and the Key West community. For further information contact Jay Scott, Development Director at [jay@tskw.org](mailto:jay@tskw.org) or (262)424-7940.
